MEMORANDUM FOR: Mr. Wolf

1. It occurs to me that a Notice concerning the functions of the Inspector General, similar to that being prepared for the Auditor-in-Chief, should be published. We are, after all, a civilian not a military organization and the functions of the Inspector General are probably not generally understood by all personnel.

2. In this connection, I would appreciate it if you would tell both Mr. Hedden and Mr. Becker that for this purpose, as well as to assist us with a revision of CIA [REDACTED] we need statements of functions from both the Inspector General and the DD/I.

3. If you approve, and when you have done this, I shall ask [REDACTED] to work directly with them in obtaining their statements.
